Your School and Other Clubs in Your Area

Each campus has a wealth of resources to help your club be successful.

- Use your campus advisor, service-learning office and student activities or affairs personnel to help accomplish your club's goals.
- Consider partnering with other student clubs, cultural centers on campus, the newspaper and other campus institutions.
- Connect with schools in your area to collaborate or learn from their events and techniques by sharing best practices.

A global citizen is someone who understands global interconnectivity, respects and values diversity, has the ability to challenge injustice and inequalities and takes action in a way that is personally meaningful.
