Help the Children of Nepal

The powerful earthquake that struck Nepal has left millions in urgent need of humanitarian assistance. The first priorities for UNICEF are to provide lifesaving supplies and keep children safe.

As global citizens, our response is crucial. Here are a few ways you can get involved:

- **Make a donation.** Nimble financial resources are needed most in the hours and days after an emergency. **Donate online today** or text "Nepal" to 864233 (UNICEF) to make a \$10 donation.
- Organize a vigil to honor the lives lost and support those in current need. Spread the word about how people can volunteer and **get involved.**
- Create an online or offline fundraiser. **Register your event** so we can help support you and use these **online fundraising pages.**
- **Talk to the children in your life** about emergencies and violence. Use this resource from our friends at TeachUNICEF.org.
- Stay up-to-date via social media and share UNICEF's information. Find us on Twitter and Instagram: **@unicefusa**; and join us on Facebook: **UNICEF-USA.**
