

Dear School Administration,

I am interested in establishing a UNICEF UNITE Club at our school.

United Nations Children's Fund is a United Nations organization that was established after the devastation of World War II in order to provide humanitarian and developmental assistance to children and mothers across the globe. For nearly 70 years, the United Nations Children's Fund has been putting children first, protecting their rights and providing the assistance and services they need to survive and thrive. UNICEF has helped save more children's lives than any other humanitarian organization in the world. By establishing a UNICEF UNITE club, we will empower students to become global citizens. Through fundraising, awareness, and community service, we will be able to help the millions of children who need our help.

A UNICEF UNITE Club will benefit our school in several ways. The club will first serve as a space to discuss global issues and concerns. As a club we will brainstorm unique methods to engage other students so that they too can provide aid to the world's most vulnerable children. Discussing global issues will also leave the members with a better understanding of current events. The club will cover a wide range of UNICEF's Program Areas, such as child protection, education, and water. These may align with certain areas of study, allowing for a more insightful, understanding life outside of the classroom. The club will also provide students with an opportunity to gain leadership positions.

I hope that the UNICEF UNITE Clubs program is appealing to you and you will allow us to establish a UNICEF Club at our school.

Sincerely,
