UNICEF has saved the lives of more children than any other humanitarian organization in the world. Despite extraordinary progress, 18,000 children still die every day from preventable causes. The U.S. Fund for UNICEF believes that number should be ZERO.

The fifth annual UNICEF's Next Generation Photo Benefit is a unique event that brings UNICEF and the art world together. The theme of this year's show is "blue" and the event will showcase images from emerging and established photographers and UNICEF's Next Generation members. Their photos represent the plethora of people, places, things, emotions, symbols, and abstractions that make up this simple and common word. Proceeds will benefit Next Generation's current project: to raise \$100,000 to support the UNICEF Tap Project which funds water, sanitation and hygiene programs around the world.

UNICEF's Next Generation is a dynamic group of young professionals aged 21 to 40 who share a commitment to UNICEF's future and a belief in ZERO. To date, Next Generation has raised over \$3.5 million for UNICEF programs worldwide.
